MP Reorganization Background

- ◆ **MP Reorganization identified by FSPG as part of the CSS Migration Plan.**
- ◆ **DCMC, PP&O recommended that MP Reorganization move from the Study Category to the FSPG Tier 1 initiative.**
- ◆ **CMC Message 281320Z Feb 00:**
 - ◆ **Directed to establish an MPBn within each MEF.**
 - ◆ **MPBn implementation would commence in FY 02.**
 - ◆ **Recapture 136 MPs lost during the 1997 ADFS RG.**
 - ◆ **CG, MCCDC designated lead.**

Why Reorganization?

- ◆ **Current FMF MP assets are decentralized and spread across the three MSCs within each MEF.**
- ◆ **No single resource manager for MP assets in the MEF.**
- ◆ **Establishing the MPBn would centralize FMF MPs under a single resource manager.**
- ◆ **MPBn would continue to provide augmentation support to Bases and Stations.**
- ◆ **FSPG WG recommended an MPBn in I/II MEF and an MP Co in III MEF.**
 - ◆ **DCMC, PP&O's guidance was to mirror-image 3d MPBn with 1st/2D MPBn, coding the additional structure from MARFORRES.**
- ◆ **New Doctrine (MCWP 3-34.1) supports consolidation as increase support to the MAGTF Commander.**

FSPG Assumptions

- ◆ **CSS Migration Plan and ILC implementation would occur prior to or during this reorganization. The MPBn would:**
 - ◆ Require no organic administrative support.
 - ◆ Capable of first echelon maintenance only.
 - ◆ Require no organic supply support.
- ◆ **20 Non-58XX billets would be available for restructuring from the current FMF MP structure.**
- ◆ **No additional equipment would be required.**
